

REORDERING ST ANDREWS PARISH CHURCH

The Rood screen and the choir pews were removed and the area opened up to form a large open plan nave. The body of the church was shortened and an informal meeting area was created at the rear. Above this, a new gallery was formed with a glass centre panel to enable the stained glass window in the tower to be seen. The Rood screen was later erected across the front of the newly formed Tower Prayer Room.

Location: Leyland
Client: St Andrews Church PCC
Architect: Cassidy & Ashton
Surveyor: CJ Smith
Description: Church reordering
Value: £275,000
